

This is a team assignment, both members of your two-station domain must participate equally. Only one paper will be handed in with both names on it. It is important to share the work as these changes can only be made at the PDC machine. Example: one person can do parts I and II, the other could do III and IV.

At points in this exercise you will be directed to paste an image of the active window into your document. This requires using **Alt-Print Screen** to copy the window show the desired result to the clipboard. Use the paste button to paste the contents of the clipboard into your document..

In a WordPad document for each step below identified with a **II**: show the step number, indicate in which window/menu the action was accomplished (directory properties => sharing => permission), how the action was accomplished, and image of the appropriate window or windows. **Save your WordPad file to a diskette and print it at TI 108 Open Lab or at home.**

In your domain:

Part I - Server Manager: Promotion and Synchronization

<i>Step</i>	<i>Action</i>	<i>Show</i>
1	Promote your domain's Backup Domain Controller (BDC) to Primary Domain Controller using the Server Manager (as shown p. 242 "Promoting a Server to PDC"). Capture the Server Manager screen which shows the other machine as the new PDC	II
2	Manually synchronize a server and a domain (p. 243) Capture the Event Viewer log which shows this happened	II

Part II - User Manager: Trust Relationships: Adding a Two-Way Trust

Domains will be made to trust each other as shown in the revised lab info sheet. This sheet is attached to the last page of this assignment

Each trust relationship is the result of two actions:

- The trusted domain must be configured to allow another domain to trust it
- The trusting domain then must be configured to trust the trusted domain

<i>Step</i>	<i>Action</i>	<i>Show</i>
1	Start the User Manager utility from Administrative Tools (p. 248)	
2	Choose Trust Relationships in the Policies menu. The Trust Relationship dialog box should appear. Choose the Add button beside the Trusting Domains list. This brings up the Add Trusting Domain dialog box	

<i>Step</i>	<i>Action</i>	<i>Show</i>
3	Type in the name of the trusting domain. Password is not required.	Π
4	Choose OK. When you return to the Trust Relationships dialog box, the domain you specified is added to the Trusting Domains list.	
5	The Cancel button changes to Close after a domain has been added or removed. Choose Close to exit the dialog box.	
6	IMPORTANT: WAIT FOR THE OTHER DOMAIN TEAM TO CATCH UP WITH YOU BEFORE GOING ON TO THE NEXT EXERCISE	

Part III - User Manager: Trust Relationships: Confirming that a Trust is Established

- Next, an administrator must add the new domain to the list of domains trusted by it. After logging on to the other domain, an administrator should perform the following actions:

<i>Step</i>	<i>Action</i>	<i>Show</i>
1	Start the User Manager utility from Administrative Tools (p. 249)	Π
2	Choose Trust Relationships in the Policies menu. The Trust Relationship dialog box should appear.	
3	Choose the Add button beside the <u>Trusted</u> Domains list. The Add Trusted Domain dialog box appears	
4	Enter the domain to be trusted in the Domain field. If a password was specified before, it must be entered now	
5	Choose OK to return to the Trust Relationships dialog box	
6	If all goes well, a message is displayed stating "Trust Relationship with _____ successfully established"	
7	Show Trust Relationships dialog with domain names in top and bottom	
8	Confirm that the domain has been added to the domains listed in the Trusted Domains box	
9	Choose Close to close the Trust Relationships dialog box.	

Part IV - User Manager: Creating New Users

<i>Step</i>	<i>Action</i>	<i>Show</i>
1	Start the User Manager utility from Administrative Tools	
2	In User Manager for Domains, Choose Policies and Audit	
3	In the Audit Policy dialog box that appears, select the Success and Failure check boxes for User and Group Management	Π
4	Click OK	
5	In the User Manager for Domains main window, chose User, New User. The New User dialog box appears	
6	In the Username text box, type Accountant1	
7	In the Full Name text box, type "John Dewey"	
8	In the Description text box, type "First Accountant"	
9	Hit Add to close	
10	Repeat for Accountant2, "Mark Cheatem", "Second Accountant". Give this one Dialin Permissions	
11	Show the Dialin dialog for Mark Cheatem	Π
11	Repeat for Accountant2, "Anne Howe", "Third Accountant". This one is only permitted to login between 6AM and 6PM	
12	Show the Logon Hours dialog for Anne Howe	Π
13	Show the unobstructed User Manager dialog with all the new users	Π
14	Synchronize an entire domain (p. 243)	
15	Go to the Event Viewer on the BDC and show that a synchronization took place. Capture	Π
